DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP15-490-001]

Delfin LNG LLC;

Notice of Amendment to Application

Take notice that on November 19, 2015 Delfin LNG LLC (Delfin LNG), 1100 Louisiana Street, Houston, Texas 77002, filed in Docket No. CP15-490-001, an amendment to its May 8, 2015 application pursuant to section 7(c) of the Natural Gas Act and Part 157 of the Commission's regulations requesting authorization to reactivate, construct, own, operate and maintain certain pipeline and compression facilities that comprise the onshore portion of Delfin LNG's proposed Deepwater Port (DWP), an offshore liquefied natural gas facility located off the coast of Louisiana in the Gulf of Mexico. The Amendment increases the amount of compression and capacity previously proposed, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing may be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886)208-3676 or TYY,

(202) 502-8659.

Any questions regarding this Application should be directed to Daniel P. Werner, Delfin LNG LLC, 1100 Louisiana Street, Suite 3550, Houston, Texas 77002; phone: 346-240-2574, or J. Patrick Nevins, Hogan Lovells US LLP, 555 Thirteenth Street, N.W., Washington, D.C. 20004; phone: 202-637-6441.

Delfin LNG's onshore facilities will connect with the DWP facilities that are subject to jurisdiction of the Maritime Authority (MARAD) and the United States Coast Guard (USCG). Additionally, as part of Delfin LNG's DWP, Delfin LNG proposes to utilize a segment of pipeline abandoned by High Island Offshore System, LLC (HIOS) that extends from the terminus of the UTOS pipeline offshore. HIOS filed to abandon certain pipeline facilities on November 19, 2015 in Docket No. CP16-20-000.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will

serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not

serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenter's will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenter's will not be required to serve copies of filed documents on all other parties. However, the non-party commentary, will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE,

Washington, DC 20426. See, 18 CFR 385.2001(a) (1) (iii) and the instructions on the

Commission's web site under the "e-Filing" link.

Comment Date: December 22, 2015

Dated: December 1, 2015.

Nathaniel J. Davis, Sr.,
Deputy Secretary.
